Fund Council

4th Meeting (FC4)—Montpellier, France

April 5-6, 2011

**"Harnessing the Development Potential of Aquatic
Agricultural Systems for the poor and Vulnerable"**

(Presentation by Steve Hall)

*Document presented for Agenda Item 15:
CRP 1.3 - Aquatic Agricultural Systems*

Submitted by:
WorldFish

Harnessing the development potential of aquatic agricultural systems for the poor and vulnerable.

This is not about Fish!

Harnessing the development potential of aquatic agricultural systems for the poor and vulnerable.

Three Messages

This is different

This is what we think the CG reform is all about

This is hard, but can bring real change

Harnessing the development potential of aquatic agricultural systems for the poor and vulnerable.

This is different

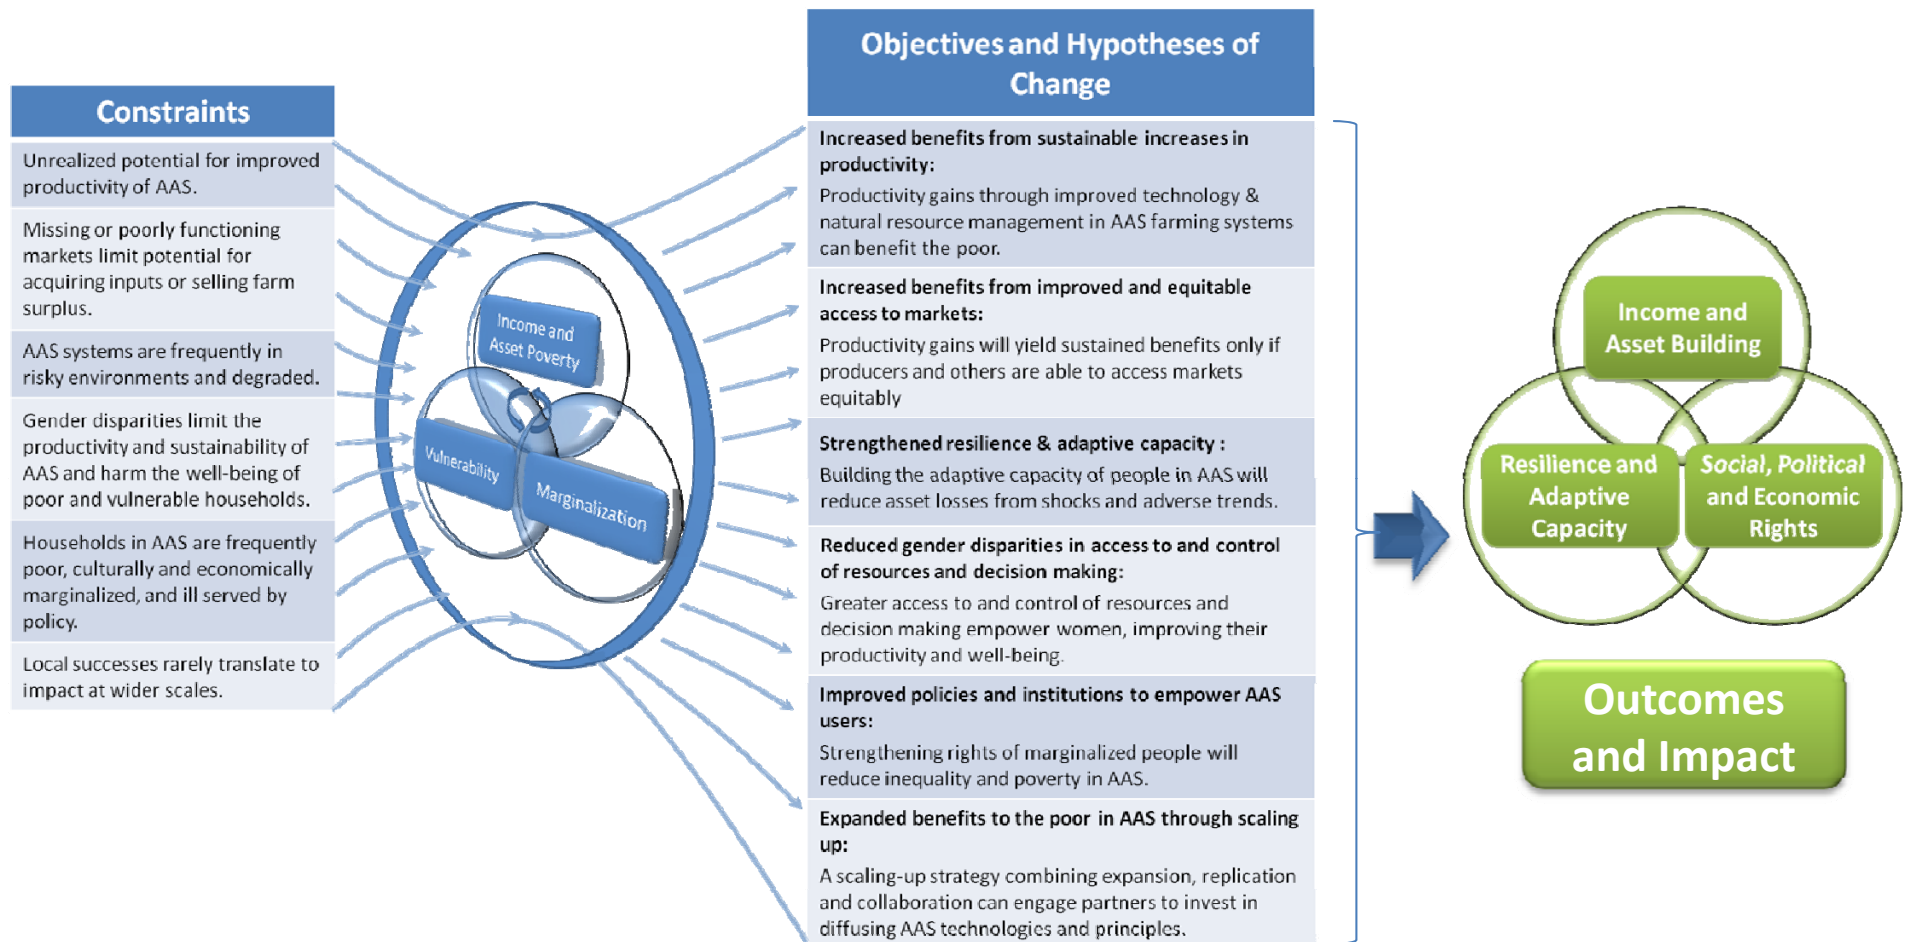

Harnessing the development potential of aquatic agricultural systems for the poor and vulnerable.

This is different

Harnessing the development potential of aquatic agricultural systems for the poor and vulnerable.

Harnessing the development potential of aquatic agricultural systems for the poor and vulnerable.

Gender

“Evidence of commitment to gender analysis in CRP 1.3 is reflected in budget figures, M&E plans and gender goals that are clearly stated and are transformative in nature”

CGIAR Gender Scoping Study

“CRP 1.3 is a clear example of best practice” CGIAR Gender Scoping Study

Harnessing the development potential of aquatic agricultural systems for the poor and vulnerable.

Income and asset poverty

- Diverse opportunities to increase income and assets
- Avoid a commodity lens
- Non-crops especially important
- Value chain approach to diversification and commercialization

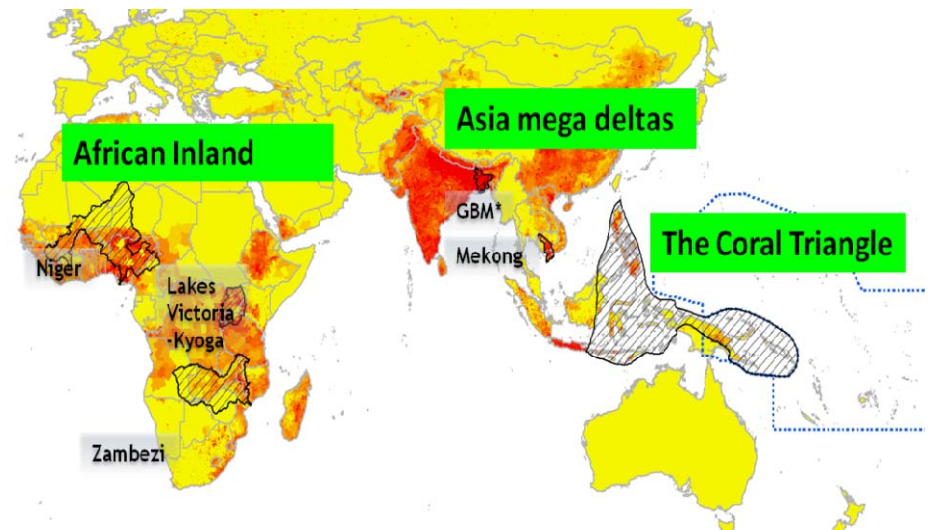

Harnessing the development potential of aquatic agricultural systems for the poor and vulnerable.

International Public Goods

Harnessing the development potential of aquatic agricultural systems for the poor and vulnerable.

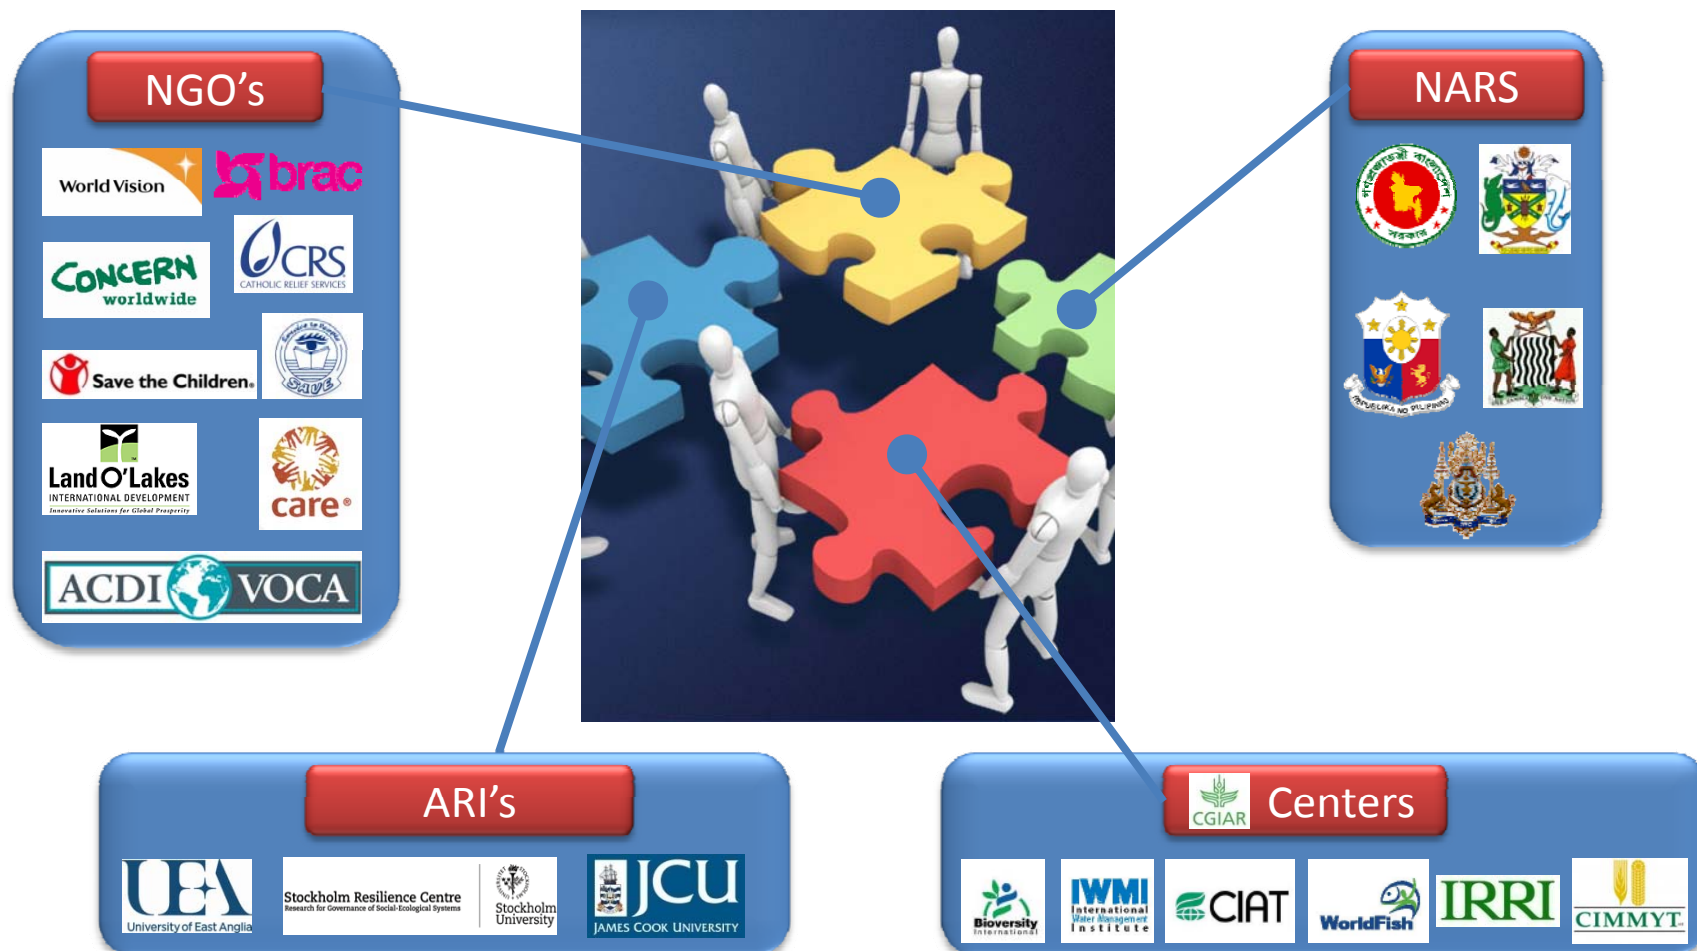

It's what the CG change is all about

Harnessing the development potential of aquatic agricultural systems for the poor and vulnerable.

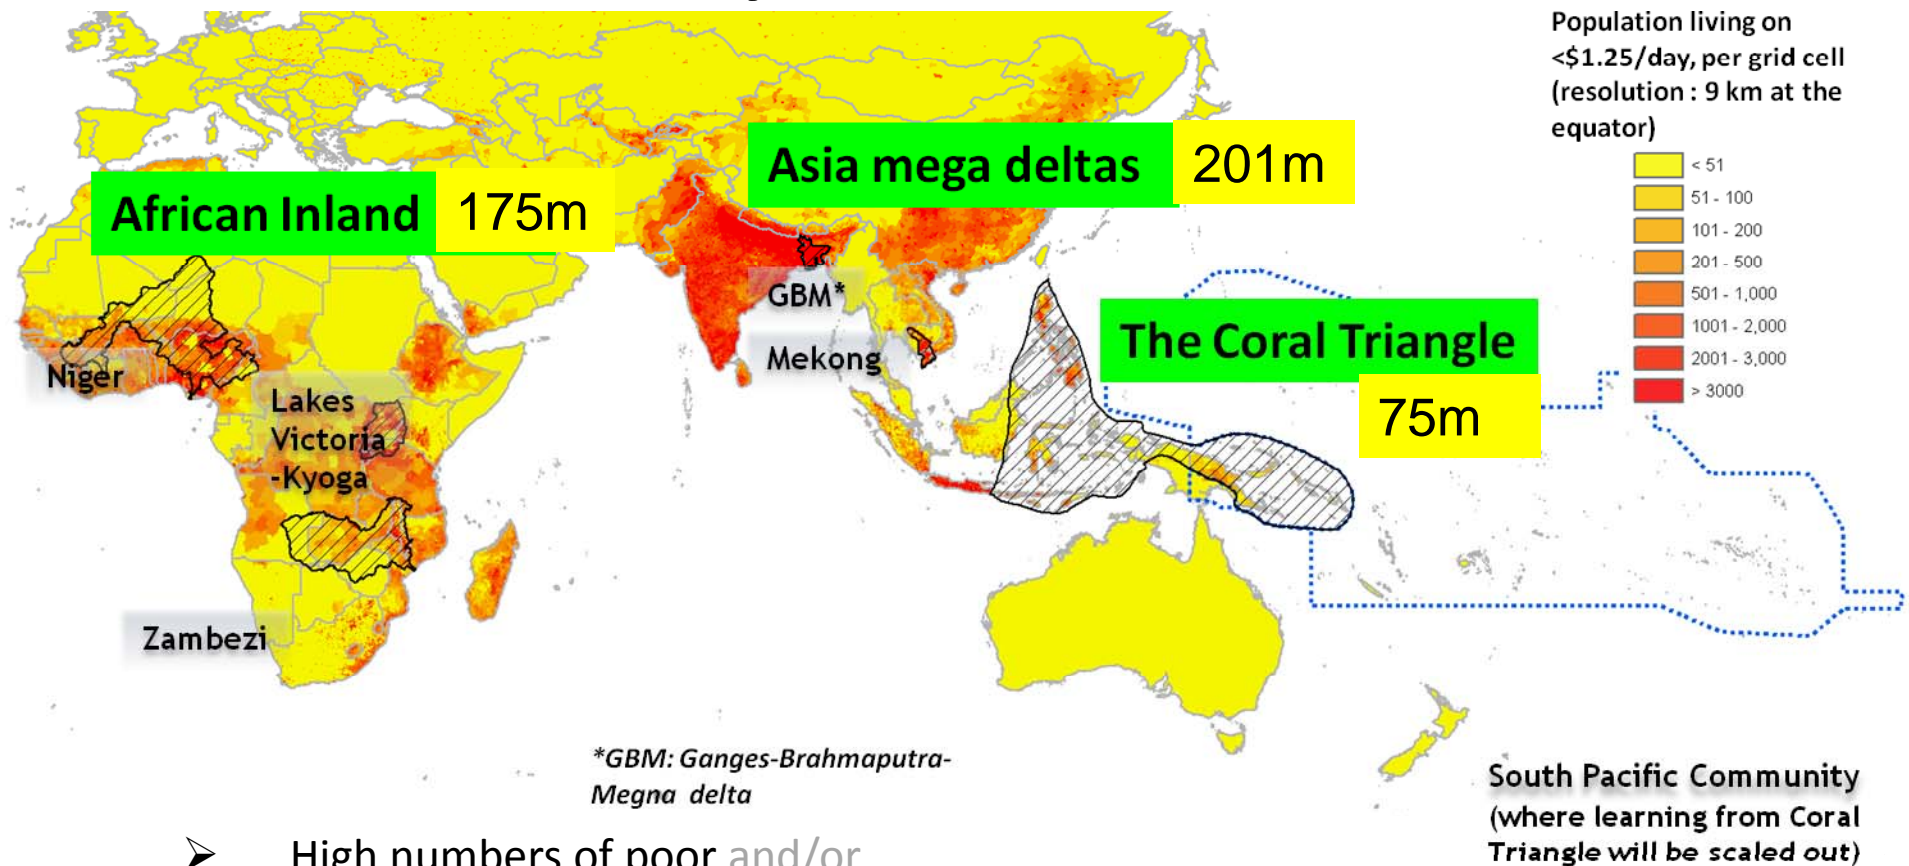

It's what the CG change is all about

"Alone we can do so little; together we can do so much." - *Helen Keller*

Harnessing the development potential of aquatic agricultural systems for the poor and vulnerable.

It can really make a difference

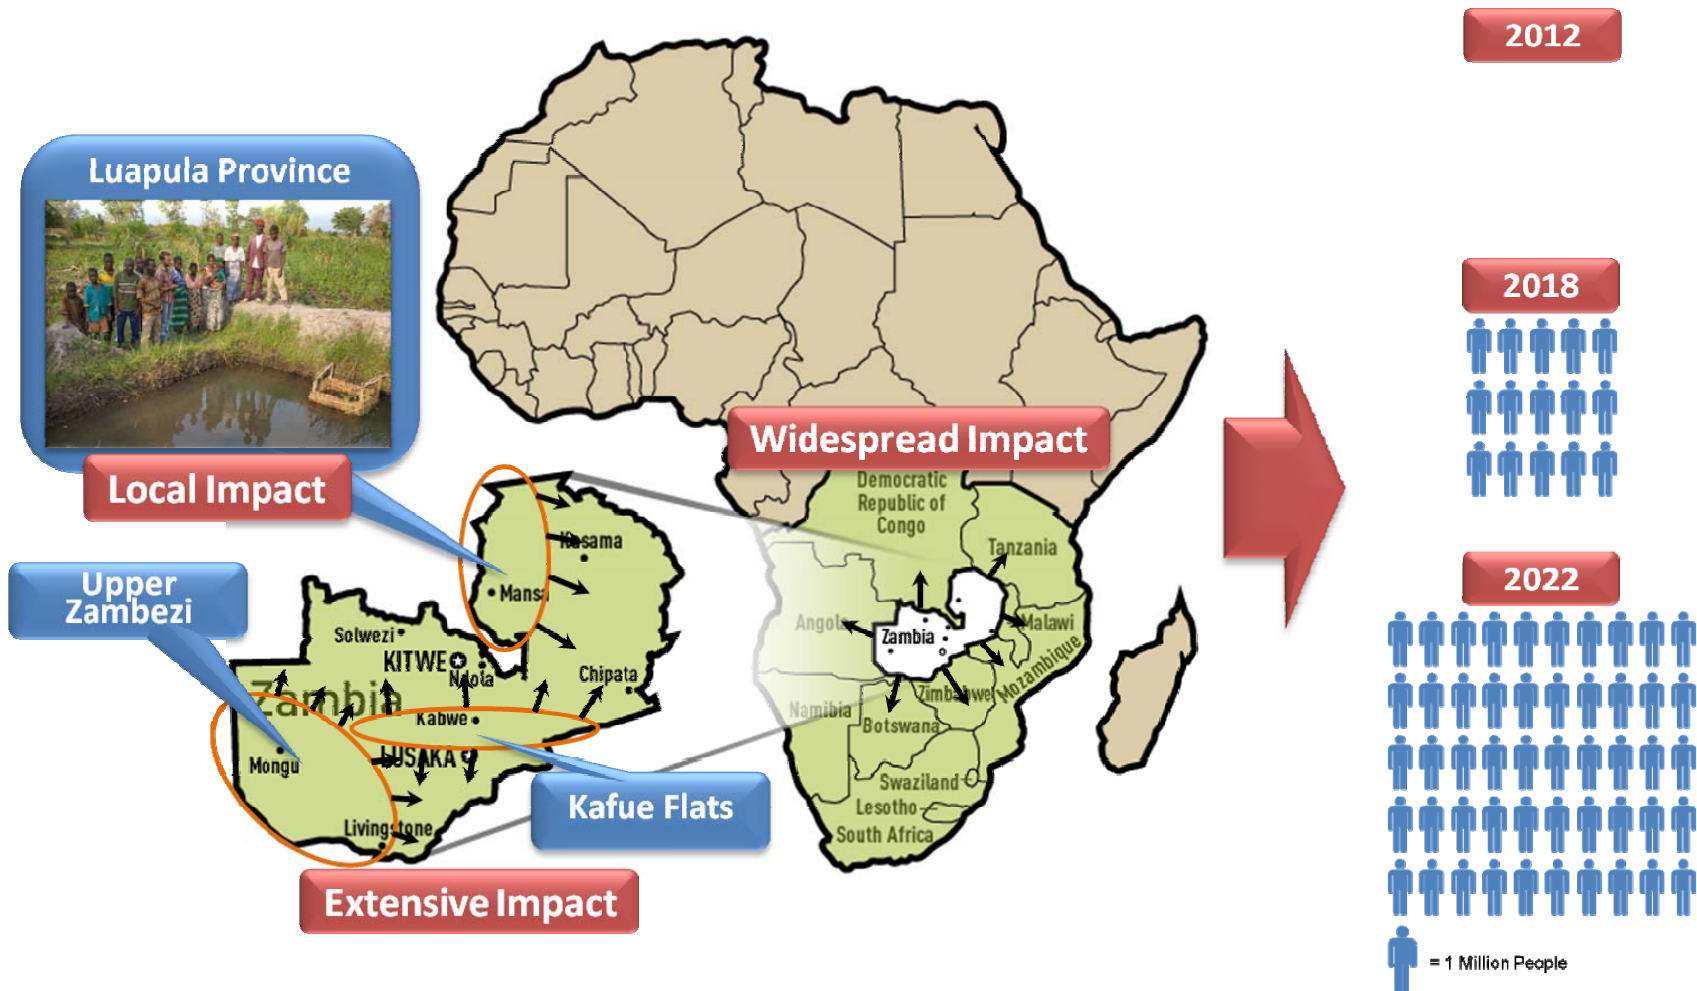

- High numbers of poor and/or
- High % of total population dependent on AAS
- High vulnerability to change (climate/sea level/water)
- Potential to scale out

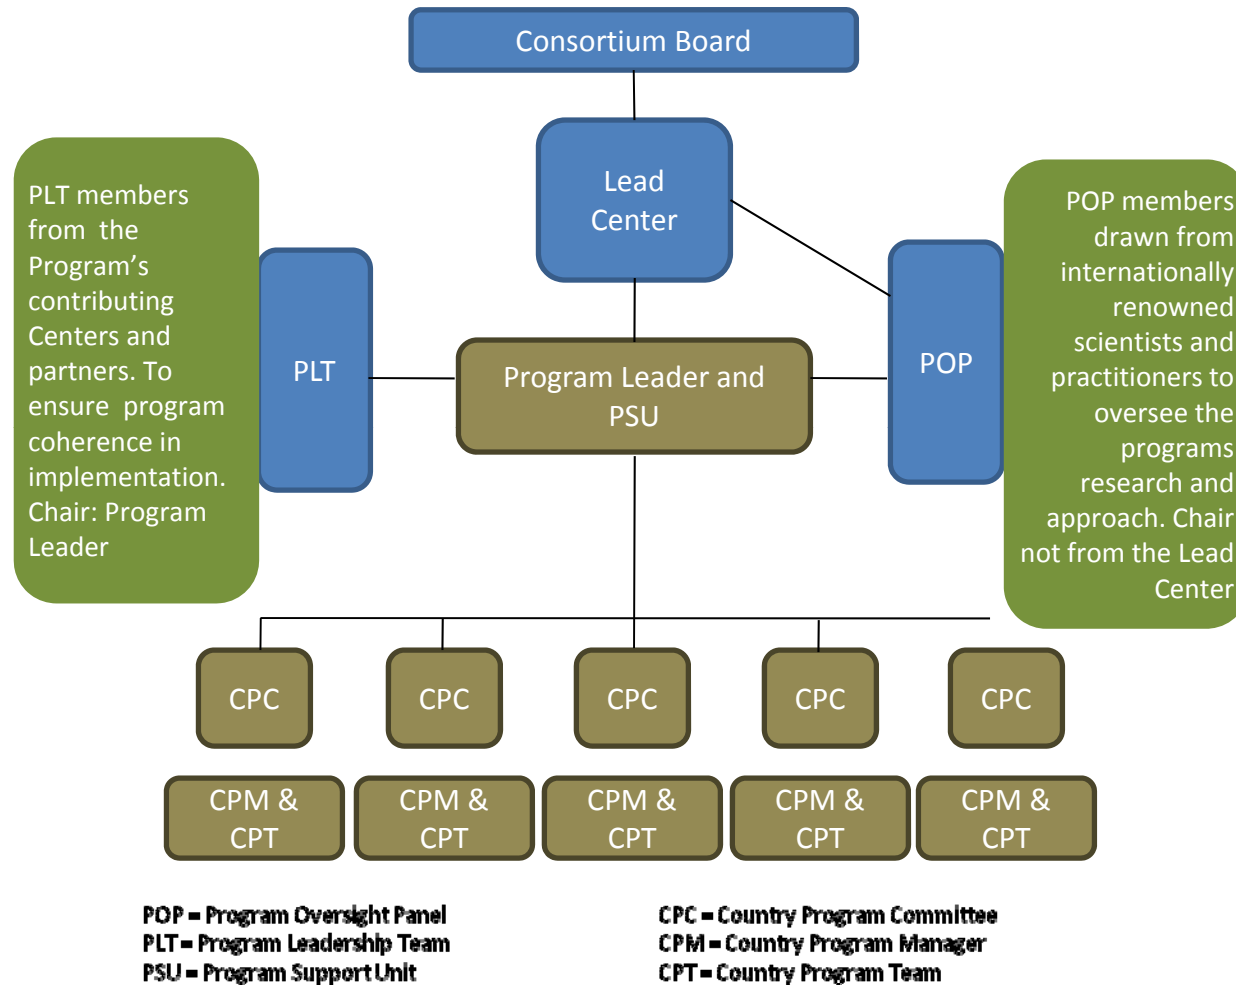

Harnessing the development potential of aquatic agricultural systems for the poor and vulnerable.

It can really make a difference

Harnessing the development potential of aquatic agricultural systems for the poor and vulnerable.

Governance

Harnessing the development potential of aquatic agricultural systems for the poor and vulnerable.

Risks

Changing
a culture
is hard!

Harnessing the development potential of aquatic agricultural systems for the poor and vulnerable.

What others say

- ***“CRP 1.3 is a clear example of best practice”*** CGIAR Gender Scoping Study
- **“A focus on people and place provides the foundation for plausible impact”** Anonymous reviewer
- **“the letters of support are an excellent testimony to the work of the many field agents who have dedicated themselves to trust and relationship building ”** Anonymous reviewer
- **“The coherence of the proposal is excellent. The framework is well-built, beginning with identification of the overlapping dimensions of poverty and logically leading to the theory of change and proposed principles to drive change”** Anonymous reviewer
